

JOIN US IN THE ART ROOM AT EAGLE'S WING LEARNING CENTER!

Studio Art *grades 4-12~*

Drawing 1 (during semester 1) will meet students at their level and teach specific drawing skills which will enhance their creativity and artistic ability. We will explore various two-dimensional mediums such as pencil, charcoal, pastels and more as we attain skills in seeing and drawing, perspective, proportions, shading and more. *If you can see it, you can draw it!*

Painting and 3-D Art (during semester 2) will give students the opportunity to develop their own styles and they learn color theory, painting techniques, and sculpture mediums.

Creative Explorations *grades PK-4~*

Students in Creative Explorations will experience *real art* as they learn to draw, paint, and use various other art mediums. We will get our hands dirty with lots of outdoor exploration, nature discovery and journaling, and fun 3-D sculpture projects. We will also experience Art illustration with literature and beautiful Caldecott books.

Something's always happening in Mrs. Raymond's Art room!
