

Elementary

Creative Explorations

Creative Explorations afternoons begin with **outside time, nature study** and **nature journaling!** Students explore nature and make connections with God's great earth. Nature journals fill up with their finds and nature notes!

Living Literature and beautiful **poetry** selections merge with their outdoor nature studies. Creativity flows as the words and illustrations are imitated from our Literature books. Students excitedly fill **Art Portfolios** with their creations as they explore their own styles as various art mediums are introduced.

Gym Games, geography and even **math** games also lead to connections and keep kids wondering and creating.
