## **Eagle's Wing Learning Center Student Code of Conduct**

*Eagle's Wing Learning Center exists to nurture joy and creativity in learning.*

Our educational philosophy follows the philosophies of Charlotte Mason education. This philosophy emphasizes that education is an atmosphere, a discipline, and a life. These 3 'prongs' of education are further guided at Eagle's Wing in the following way:

### **Education is an Atmosphere:**

Eagle's Wing Learning Center is a co-school, operating 3 days per week. As a co-school, we partner with parents *and students* in their educational endeavor. **Parent partnership is essential to this process. Parents retain the final responsibility to educate their children.**

All students have the right to a joyful, safe, nurturing and creative educational atmosphere. Students are responsible for their own self-regulation and academic motivation.

Eagle's Wing will provide parents and students with daily summaries of classes and homework which should be completed at home in order to make learning successful. This at-home component is essential to the homeschool/co-school process. Parents are responsible for providing support to their student in the way of email (or Discord) communication, home instruction, guidance and oversight in daily homework, and regular communication with teachers and staff. *Homework is expected to be completed and parents are responsible to facilitate this essential educational component.*

### **Education is a Discipline:**

Developing God-honoring character and habits is the ultimate goal of a Christ-centered education. Students are accountable for their classroom behavior.

### **Student Code of Conduct**

With our ultimate goal being to glorify God, we seek to build student's character and habits of *self-control, respect, and honor for one another*. Appropriate guidelines and boundaries with regard to student daily conduct should be as follows:

- **Respect** your teachers~ Students should not talk back to any teacher, or speak to a teacher in a sarcastic, raised voice or a disrespectful manner. When asked to complete a task or to interact in a positive manner, students should respond in the affirmative and not 'challenge' the teacher.

- **Respect** your classmates~ this includes kindness towards all students, honoring their boundaries, and being inclusive at all times. Students are asked to comply with appropriate behavior and talk with other students, always deferring a high standard of God-honoring conduct and talk. Crude or vulgar language should never be used.

- **Respect** church property and classroom materials~ Students are expected to care for the property and classroom materials that they are blessed to be allowed to use.

- We understand that students may at times become overwhelmed or frustrated. When this occurs, students may, for their own self-control and regulation, take a break from the classroom.

- **Students must communicate with their teacher if they need to leave the classroom for any reason.**

- If at any time a student's behavior disrespectful or inappropriate, the student may be asked to take a break and sit with Mrs. Murray. The classroom and social environment at Eagle's Wing is a privilege and negative behavior may cause the student to lose this privilege.

- *If a student or parent has a concern or question regarding classroom or facility behavior or expectations, etc., this should be taken privately to the teacher first, then to the administrator or director if needed. Our door is always open, but we ask that students and parents communicate appropriately and privately, rather than in an open forum.*

**While at EW, students will be asked to follow rules and boundaries that are consistent with a safe and respectful classroom situation. This is because the staff at EW is responsible for their safety and well-being, and we take this very seriously!**

**Education is a Life:**

This philosophy within our classroom context recognizes that learning happens all the time, and not only within the 4 walls of a classroom. Outdoor learning is essential for building health, wellness and attention habits. Both outdoor nature study (the basis for science) and outdoor PE and free play are a priority and will happen every day. Students should come prepared to be outside!!

Students and parents are encouraged and responsible to complete homework. Field trips, nature study, and family and outside learning are all additionally recognized as essential to a student's education and well-being.

I have read the Code of Conduct and agree to abide the guidelines above.

# Math Classes Junior/Senior High 2025-26

**Student Name:** \_\_\_\_\_

**Student Name:** \_\_\_\_\_

Math instruction for junior and senior high students takes place four days each week (Mondays through Thursdays). Any student enrolled in a math class must attend all four days. (Monday math class is on Zoom.) *If you are enrolled in full days at Eagle’s Wing you only need to mark ‘Monday Zoom’ class.*

Students who are not enrolled in a full day at Eagle’s Wing but wish to take math may mark the ‘math only’ days on this chart below. The means that they will attend math class only on the days marked, but not the regular full or half day.

(For instance, if a student is enrolled in Tuesday Full day classes but wishes to be enrolled in math class, you would mark ‘Wednesday Math’ and ‘Thursday Math’. Tuesday math would be included already in their full day Tuesday enrollment.)

*All students enrolled in math should mark the Monday Math Zoom day.*
